In a previous article we emphasized how the name Palin has the exact same 4 letters as Nafli, part of the name of Mashiach (Bar Nafli). Examining these letters we find that 3 of them have special relevance to the end of days. The **letters י yud, ל lamed and נ nun** are not only contained in the names Palin and Nafli, but also in the name Livni, most probably the next leader of Israel. Yud represents Hashem, while nun represents Mashiach. The nun is the 14th letter of the Hebrew alphabet and 14 is the numerical value of **דוד David**, the progenitor of the eternal kingdom of Israel. The lamed means to teach, and at the end of days it is vital to teach the Jewish People around the world about Hashem and Mashiach. It is rare to find the occurrence of these 3 letters consecutively within a word. There is an incredible secret that is revealed when one of the few locations of these 3 consecutive letters are analyzed. It appears in the Book of Daniel, the book that contains more secrets regarding the end of days than any book in Torah.

In Daniel 12(7), the prophet Daniel heard an angel being asked, “How long until the concealed end?” The response was “Upon the completion of the crushing of the hand (power) of the holy (Jewish) People, all these things (the events foretold in the Book of Daniel) will be finished.” The word for completion, **תכלינה** contains the important 3 letters lamed, yud and nun consecutively within it. Amazingly, the atbash or reverse gematria of this word is 190 the same as **קץ** the “end” reflecting the connection of this message that Daniel heard to the time of the end of days. If we examine the words leading up to **תכלינה** (completion) we will find a connection to the angel’s words and a current event occurring right before our eyes. The words **ככלות נפץ יד עם קדש**, “when the crushing of the power of the holy people”, have an atbash value of 444, the same gematria as **עיר גדולה לאלקים**, an enormously large city. The reference comes from the Book of Jonah, recited on Yom Kippur, and the city referred to was Ninevah, the greatest city at that time.

The greatest city of our time is New York City, a city where the crumbling stock market is located and powerful financial institutions headquartered there are being shattered. Our prophets speak about earthquakes that will occur at the end of days. Most people expect a great shaking in the world as giant mountains become leveled. However, these earthquakes are not the normal type of quakes that occur. They are “financial earthquakes” that will continue to shake the world as large, great financial institutions (mountains) come crumbling down. It’s interesting to note that the name **נו יורק** (New York) appears secretly in code right before an unnatural earthquake sent by G-d splits open the earth swallowing Korach and his followers. See Numbers 16 (18-33). The verses mention that not only did all the people with Korach die, but that the earth also swallowed up their entire wealth. The words for “entire wealth,” **כל הרכוש** have an incredible connection to New York through Hillary Rodham Clinton, a U.S. Senator from New York. These words for “entire wealth,” have an atbash of 255, and the gematria of Hillary is 255, Rodham is 255, and Clinton is 255.

Even the Hebrew of “Wall Street,” **וול סטריט** hints of the connection with the end of days, for the atbash is 331, the same gematria as **מאמר הגאולה**, “secrets of the redemption.”

As the sun was setting on 5768, Hashem shouted a message at the Jewish People. It was loud and clear and unmistakable. An influx of sell orders right before the close of trading on the last day of the Jewish year brought the Dow Jones Average down for the day a total of 777.68 points or 778 if we round it up. 778 is the gematria of בביאת המשיח, (in the coming of the Messiah), and also פקד פקדתי, (I have indeed remembered you). פקד פקדתי are the secret passwords of redemption which Moses used to prove that he was the real redeemer speaking in G-d's name. Hashem was telling us that even though 5768 was ending without our long awaited redemption, He has not forgotten the Jewish People and our redemption was indeed coming very soon.

One of the results of the collapse of giant, financial mountains that Jewish People helped build up here in galus, will be the shattering of the power, wealth, and prestige of the Jewish People here in America. Without the chains that bound us to this Gan Eden here in galus, the Jewish People will finally have no reason, to remain here. The excuse that has kept us here for too long will finally not be applicable anymore.
